

**TAP 2017**

**Call for papers**

**22<sup>nd</sup> International Transport and Air Pollution Conference**

Towards clean and sustainable transport

**15<sup>th</sup> to 16<sup>th</sup> November 2017**

Empa Dübendorf, Zürich

Switzerland

**Empa**

Materials Science and Technology

## Programme

The Transport and Air Pollution Conferences have been held since 1986 in Graz (Austria), Zürich (Switzerland), Avignon, Reims, Toulouse and Lyon (France), Boulder (Colorado, USA) and Thessaloniki (Greece). After the 2016 conference in Lyon, this 22nd TAP conference will take place in Zürich (Switzerland) again. The aim of the symposium is to bring together scientists, international experts, users and policy makers to share and assess the current scientific knowledge of air pollution due to emissions from transport systems.

This 22<sup>nd</sup> TAP will focus on the following topics:

- **Exhaust and non-exhaust emissions from transport modes: measurements and modelling**
  - Emission control technologies of primary air pollutants of road and non-road transport
  - Pollution characteristics of primary and secondary air pollutants from road and non-road transport
  - Remote Sensing measurements
  - Real driving emissions
- **Urban and suburban air quality**
  - Air quality measurement, monitoring and modelling
  - Transport and non-transport emission interactions
  - Human exposure and health impacts
- **Energy demand and greenhouse gas emissions from transport modes**
  - Energy efficient technologies and alternative fuels
  - Energy optimization of transportation systems
- **Transport policies and mobility challenges of the future**
  - Intelligent transport systems and traffic management
  - Economic instruments and their impact
  - Societal challenges (perception of air quality and acceptability)

## Call for Abstracts

Interested authors are kindly invited to submit a one-page abstract (in English) for the TAP 2017 conference. Contributions should address one of the main topics of the conference. The template that should be used for writing the abstract is available on the conference homepage ([tapconference.org](http://tapconference.org)). The abstract should be prepared to be submitted in pdf format.

The submission of abstracts will be open **until the 29<sup>th</sup> of May, 2017**. Please note that the Scientific Committee will take a decision on whether the paper is accepted or not. No further changes/reviews of the abstract will be requested. The authors will be notified for the acceptance of their abstracts until June 30, 2017. The deadline for the complete paper submission is scheduled for September 08, 2017.

Please submit your abstract by email to [tap2017@empa.ch](mailto:tap2017@empa.ch) using the appropriate template and according to the authors' guidelines.

## Conference Location

The conference will take place at the Empa-Akademie in Dübendorf. Empa is conveniently located between Zürich airport and Zürich city centre. Fast and frequent direct tramway connections bring you from Zürich airport to the venue without having to enter Zürich city. From Zürich downtown, frequent suburban trains travel to either Stettbach or Dübendorf. From there you have several public transport possibilities which bring you to Empa.

Additional information regarding the paper submission, registration, venue, etc. can be found on the conference website [tapconference.org](http://tapconference.org) or can be requested by mail to [tap2017@empa.ch](mailto:tap2017@empa.ch).

# TAP 2017

## Key dates

Submission of Abstracts	29 May 2017
Abstract Acceptance Notification	30 June 2017
Submission of Full Lengths Papers	08 September 2017
Paper Acceptance Notification	02 October 2017
Submission of Final Revised Papers	16 October 2017
TAP Conference	15 –16 November 2017

## Conference fee

Early registration: 440€ (until 30th of July, 2017)  
Standard registration: 490€  
Students: 200€ (requires a proof of enrolment)  
Accompanying person: 50€ (for the conference dinner)

The conference fee includes:

- Admission to the 22nd TAP Conference
- Memory Stick with all papers and posters
- Final programme
- Welcome reception & conference dinner
- Coffee breaks and lunches
- Certificate of attendance (if required)

## Organising committee

Empa, Swiss Federal Laboratories for Materials Science and Technology  
Department for Mobility, Energy and Environment  
Automotive Powertrain Technologies Laboratory

In collaboration with
